Profile

Highly enthusiastic in hands on over Mobile Development (Android & React native).

Coding enthusiast, aim to write code which not only machine even human can understand . Delivering results by taking ownership and responsibilities, Growing professional always increasing the learning curve .

Professional Experience

12/2023 – present
Hyderabad, India

Lloyds Technology Center

Software Engineer ✎

Working as a Android Engineer

- I am actively contributing to the development of banking applications, leveraging my expertise in Android development, JetPack Compose, Kotlin, Coroutines, various Android architectures, unit testing (utilizing Mockk and JUnit), and Dependency Injection. By harnessing these skills, I deliver robust and efficient solutions tailored to the specific needs of banking applications.
- Implemented a new feature — *Spending Rewards* — from scratch, including integration with GCP APIs, using above mentioned tech stack. This feature allows users to easily redeem their cashback and transfer it to their own accounts. Users can also seamlessly monitor their cashback transactions along with detailed information, and effortlessly activate offers to enjoy cashback benefits wherever they choose.

09/2021 – 11/2023
Bangalore, India

Educational Initiative

Software Engineer ✎

- Worked on React-Native Framework for Mindspark Mobile Application and in SpringBoot & microservices for Backend Development
- Ei Mindspark is an AI-powered personalised adaptive online Maths learning .platform that effectively allows students to advance at their own pace. Ei Mindspark delivers over 2 million questions every day, and the data collected is used to enhance a child's learning pathway .

- Implemented Trusted Device Features, OTP Login, Screening Test , Dual Login flow etc . Made Responsive UI and Student Interactive Application with bug free Worked on various concept like WebView with strong Iframe , State Management for the App , B2C , B2B Modal , Firebase Crashlytics .
- Worked on MVVM/MVC architecture , Done some POC on Flutter for MindSpark.
- Worked on Redux/Mobx state management library , Mixpanel Implementation etc Reduced Mindspark Application Size from 32mb to 25mb by removing third party packages and made custom implementation instead .
- Optimised the application and made 30% fast from the older with updated react-native version and 0 sonarqube code smell bugs .
- Application Link : <https://play.google.com/store/apps/details?id=com.mindspark.edicine>

06/2021 – 09/2021
Bangalore, India

MoneyTap
Software Engineer

- Done Some POC on Flutter , Android with kotlin for MoneyTap Fintech applications .

01/2021 – 06/2021
Noida, India

Appventurez Mobitech
Software Developer Intern

- I worked on Android with Java for AstroBaBa Mobile Application .
- I worked on MVVM architecture , Room database for local , Cloud messaging Integration of Api , Live Chat , Push Notifications .
- Made Responsive and User Interactive Application with bug free .
- Application Link : <https://play.google.com/store/apps/details?id=com.ev.live&pli=1>

Education

2018 – 2021
Kerala, India

National Institute of Technology Calicut
Master Of Computer Application
CGPA - 7.94

2015 – 2018
Patna, India

Admerite College (Magadh University)
Bachelor Of Computer Application
Percentage - 64.2%
